HIS & HER are complementary collections, whose aim is to affirm the brand's aesthetic.

This product is intended for a demanding public, attentive to trends, and has a differentiating identity for a specific end consumer.

These two collections are inspired by artistic movements from the beginning of the 20th century, namely in the aesthetic plurality that spread throughout Europe of Art Nouveau, and later in Art Deco, as well as in international style that has developed around the world.

it is one of the main inspirations of
the HER collection,
giving rise to the first piece of the collection,
the night table.

was inaugurated on April 20, 1970,
and is still the headquarters of
the Ministry of Foreign Affairs of Brazil,
located in Brasília.

It is considered a masterpiece by
architect Oscar Niemeyer.

Palácio dos Arcos was
the first name given to the building,
due to the arches of the facade.

This was a source of inspiration
in the development of the dressing table HER.
